

Friendship Camp | July 30th - August 3rd

Friendship Camp at The Johnson Center is a week-long camp designed to teach elementary school children how to form "quality friendships". Using the research-based Children's Friendship Training protocol, the camp consists of Friendship Coaches teaching lessons to the group, followed by an activity where the kids practice skills from the lesson with their peers. Kids are also given homework that involves additional practice of the skills learned in the daily lessons. This extra practice helps the kids become more confident using the newly learned friendship skills in new settings.

During Friendship Camp your child will learn:

- Conversational skills
- Ways to find common interests with peers
- Joining peers in play activities
- Ways to make a good first impression
- Ways to handle teasing, bullying and rejection
- How to be a good sport
- Ways to show respect to adults and teachers

Age Group: Grades 1st - 2nd

Session: M-F 9am-12pm

Led by Led by Sally Borella, Behavioral Consultant at The Johnson Center.
